

Mollart Engineering (Chessington) Limited

Deburrer/Finisher Vacancy

An opportunity has arisen for a high-performing Deburrer/Finisher to join a long-established company with a world-leading reputation for the manufacture of cutting tools and provider of precision subcontract machining, based in Chessington, Surrey.

The Role

Working within the company's Subcontract division, the successful candidate will be part of a dynamic engineering team. You will play a key role in deburring CNC turned machine parts to the highest quality standards for a range of customers in sectors as diverse as oil and gas, nuclear, automotive, aerospace and general engineering.

This is an outstanding opportunity to become part of a growing division with opportunity for personal growth and responsibility.

Responsibilities:

- Deburr external surfaces and edges of CNC turned machine parts.
- Deburr internal cross drilling and internal and external threads.
- Work confidently in an AS9100 certified environment.
- Use hand tools to meet customer drawing requirements.
- Perform final part marking.
- Read and interpret engineering drawings and route cards accurately.

Requirements:

- Strong attention to detail and product quality.
- Proven experience in a machine shop environment.
- Knowledge of multiple material types.
- Excellent organizational and multitasking skills.
- Positive can-do attitude.
- Ability to work under strict deadlines.
- Excellent communication skills.

The Package

- Salary package: Competitive salary.
- 38-hour week – 12 pm finish on Fridays.
- Pension scheme.
- Life Assurance.
- Participation in the company bonus scheme (subject to qualifying period).
- 5 weeks holiday.
